SUBJECT INDEX

Abstinence
monoamine oxidase B, dopamine function, bromocriptine, apomorphine, growth hormone response, letter to the Editor 307

Abstracts
abstracts of the 10th International Conference on Alcohol 503
BAR abstracts 313

Acetaldehyde
carbohydrate-deficient transferrin, alcohol, carbon tetrachloride, galactosamine, male Wistar rats 445
ethanol metabolism, aldehyde dehydrogenase, colonic bacteria, organ toxicity 555
prostacyclin, cardioprotective mechanism, endothelial cells, prostaglandin $F_{1\alpha}$, alcohol consumption, letter to the Editor 309

Acetaldehyde disposal
catalase distribution in rat brain, adrenergic neurons/noradrenergic neurons, serotonergic neurons, alcohol 167

Acetylcholinesterase
ethanol narcosis, ethanol sensitivity, choline uptake, male rats 217

Adaptation
stress, open-field ambulation, depression, food intake, ethanol, male albino Wistar rats 471

Admissions
intensive care unit, hospital resources, costs, alcohol, withdrawal 393

Adolescent alcohol misuse
questionnaires, frequency–quantity of alcohol use, high-risk drinking, negatives consequences of drinking, United States 297

Age
alcohol, glycoproteins, brush-border membrane, cholesterol, phospholipids, male Albino rats 183
AUDIT questionnaire, identification of alcohol misuse, gender, general hospital population, Northern Ireland 279
female drinking in Japan, gender, post-industrial urbanization 41

Alcohol
alcohol misuse, detection, screening, detoxification, prevention, GPs' awareness education and training 231
alcoholic beverages, urinary excretion of tetra-β-carbolines, biochemical markers 197
chronic alcoholization, ethanol withdrawal, adrenalectomy, HPA axis, tremors, harmine, male rats 175
intensive care unit, admissions, hospital resources, costs, withdrawal 393
muscle physiology, protein deficiency, malnutrition, propylthiouracil, male Wistar rats 157

Alcohol and liver injury
lipoprotein secretion, glycoproteins, rat 51

Alcohol consumption
alcohol consumption level, biological markers, Regranting of Driving Licences, France 617
alcohol consumption patterns, psychological functioning, craving, autonomic disturbances, 5-hydroxytryptophol, alcohol 429
female drinking in Japan, age, post-industrial urbanization 41
increased alcohol consumption, thiamine deficiency, hydroxythiamine, transketolase, thiamine pyrophosphate, AA and ANA rats 421
media influences, research implications, output of mass media 235
premenstrual syndrome, Severity of Alcohol Dependence Questionnaire, gender 145

Alcohol intake
carbohydrate-deficient transferrin, marker, experimental alcohol consumption, healthy subjects 265
marker, carbohydrate-deficient transferrin, % CDT, blood ethanol concentration, drinking patterns, abstinence 257
marker, carbohydrate-deficient transferrin, % CDT, γ-glutamyl transferase, serum transferrin, general hospital population 249

Alcohol metabolism
aldehyde dehydrogenase, acetaldehyde, ethanol metabolism, colonic bacteria, organ toxicity 555
aldehyde dehydrogenase, alcohol dehydrogenase, disulfiram, acetate, vinegar effect 75
pharmacokinetic model, blood–ethanol concentration, alcohol dehydrogenase (ADH), gastric ADH, liver ADH, Swiss Webster male mice 365

Alcohol research
ethics, funding:invited review 11

Alcohol use
harmful alcohol use, identification screening, AUDiT, CAGE, MAST, questionnaires 591

Alcoholic brain damage
fetal alcohol syndrome, neurobehavioural development, alcoholic brain damage, rats 27

Alcoholics
detoxification, Wernicke–Korsakoff syndrome, transketolase, thiamine pyrophosphate effect, activity ratios 493
relatives of alcoholics, spouses of alcoholics, support, information procedures, one-year follow-up 359

Alcoholism
cost, consequences, SECCAT Survey, quality of life 565
medico-legal aspects of alcoholism, breath alcohol/breath acetaldehyde, exhalation profiles 61
per-capita spending, alcohol-related productivity losses, alcoholism treatment facilities 487
seizures, detoxification, kindling 375

Authorship
invited commentary 7
Blood flow
implantation, blastocyst, alcohol, rat 81
Breath
breath alcohol/breath acetaldehyde, medico-legal aspects of alcoholism, exhalation profiles 61
Brush-border membrane
glycoproteins, cholesterol, phospholipids, alcohol, age effect, male Albino rats 183
Buspirone
voluntary ethanol intake, psychological dependence, male rats 149
Carbohydrate-deficient transferrin
% CDT, γ-glutamyl transferase, serum transferrin, marker, alcohol intake, general hospital population 249
% CDT, marker, alcohol intake, blood ethanol concentration, drinking patterns, abstinence 257
alcohol, acetaldehyde, hepatotoxins, galactosamine, male Wistar rats 445
alcohol, oestradiol, progesterone, pregnant women 389
biological markers, alcohol dependence, Regranting of Driving Licences 621
gamma-glutamyl transferase, markers of alcohol consumption, longitudinal comparison 101
γ-glutamyl transferase, comparative sensitivity, marker, letter to the Editor 305
γ-glutamyl transferase, comparative sensitivity, marker:reply 306
high-performance liquid chromatography, anion-exchange chromatography, radioimmunoassay, CDTect™, transferrin abnormal isoforms 397
high-risk offenders, Regranting of Driving Licences, Great Britain 625
laboratory markers, alcohol consumption, Regranting of Driving Licences 613
marker, alcohol intake, experimental alcohol consumption, healthy subjects 265
Regranting of Driving Licences:Proceedings of a Symposium, indicator 601
transferrin variants, diagnostic value 381
Cardioprotective mechanism
acetaldehyde, prostacyclin, endothelial cells, prostaglandin $F_{1\alpha}$, alcohol consumption, letter to the Editor 309
Catalase
catalase distribution in rat brain, acetaldehyde disposal, adrenergic neurons/noradrenergic neurons, serotonergic neurons, alcohol 167
Cerebral atrophy
inter-hemispheric area, ventricular size, T1 values, alcoholic dementia, Korsakoff's syndrome, magnetic resonance imaging 479
Choline uptake
acetylcholinesterase, ethanol narcosis, ethanol sensitivity, male rats 217
Chronic ethanol consumption
diabetes, lipogenesis, carbohydrate metabolism, lipid metabolism, obese–diabetic CBA mice 89
Cirrhosis
alcoholic hepatitis, treatment modalities 117
Cocaine
cocaethylene, alcohol-related seizures, repeated detoxifications 135
Colonic bacteria
ethanol metabolism, acetaldehyde, aldehyde dehydrogenase, organ toxicity 555
Conditioned place preference
ethanol 547
Craving
alcohol consumption patterns, psychological functioning, 5-hydroxytryptophol, biochemical marker, autonomic disturbances 429
alcohol craving, alcohol withdrawal, 4-hydroxybutyric acid, a multicentric study 341
Cycloheximide
alcohol withdrawal syndrome, seizures, ethanol containing liquid diet, tryptophan, male Wistar rats 243
Dementia
Korsakoff's syndrome, cerebral atrophy, inter-hemispheric area, ventricular size, T1 values, magnetic resonance imaging 479
Dependence
alcohol withdrawal, alcohol tolerance, physical dependence, $GABA_A$ receptor, NMDA receptor, dopamine 333
Detection
alcohol misuse, screening, detoxification, prevention, GPs' awareness, education and training 231
Detoxification
seizures, kindling, alcoholism 375
Diabetes
chronic ethanol consumption, lipogenesis, carbohydrate metabolism, lipid metabolism, obese–diabetic CBA mice 89
Diazepam
alcohol withdrawal, delirium tremens, psychosis 273
Dihydropyridine
calcium channels, hippocampus, hyperexcitability, isradipine, ethanol withdrawal syndrome, male TO strain mice 347
Disaccharidase
ileal mucosa, long-term ethanol feeding, rats 69
Disulfiram
alcohol metabolism, alcohol dehydrogenase, aldehyde dehydrogenase, acetate, vinegar effect 75
Dopamine
dopamine function, monoamine oxidase B, abstinence, bromocriptine, apomorphine, growth hormone response letter to the Editor 307
$GABA_A$ receptor, NMDA receptor, alcohol dependence, alcohol withdrawal, alcohol tolerance, physical dependence 333
Drinking habits
drinking behaviour, binge drinking, planned moderation of drinking behaviour, social cognition theories 577
drinking patterns, alcohol, food intake, Sardinian alcoholic-preferring rats 385
drinking patterns, carbohydrate-deficient transferrin, % CDT, marker, alcohol intake, blood ethanol concentration abstinence 257
problem drinkers, identification of problem drinkers,

questionnaires, gender, smoking, life events case findings 287
Regranting of Driving Licences 603
Driving while intoxicated
verification of self-reporting, court records, criminal offences 583
Ethanol
conditioned place preference 547
ethanol metabolism, acetaldehyde, aldehyde dehydrogenase, colonic bacteria, organ toxicity 555
ethanol narcosis, ethanol sensitivity, acetylcholinesterase, choline uptake, male rats 217
liver dysfunction, polyunsaturated fatty acids, jejunoileal bypass, methionine, male Wistar rats 463
phosphatidylethanol, phospholipids, inositol 1,4,5-trisphosphate receptors, male Sprague–Dawley rats 453
α-tocopherol, reactive oxygen species, glutathione, oxidative stress, vitamin E, male Sprague–Dawley rats 403
voluntary ethanol intake, psychological dependence, buspirone, male rats 149
Ethics
alcohol research, funding:invited review 11
alcohol research:editorial 5
Exhalation profiles
breath alcohol/breath acetaldehyde, medico-legal aspects of alcoholism 61
Fetal alcohol syndrome
neurobehavioural development, thiamine deficiency, alcoholic brain damage, rats 27
$GABA_A$ receptor
NMDA receptor, dopamine, alcohol dependence, alcohol withdrawal, alcohol tolerance, physical dependence 333
Gender
alcohol consumption, premenstrual syndrome, Severity of Alcohol Dependence Questionnaire 145
AUDIT questionnaire, identification of alcohol misuse, age, general hospital population, Northern Ireland 279
female drinking in Japan, age, post-industrial urbanization 41
γ-Glutamyl transferase
carbohydrate-deficient transferrin, comparative sensitivity, marker, letter to the Editor 305
carbohydrate-deficient transferrin, comparative sensitivity, marker:reply 306
carbohydrate-deficient transferrin, markers of alcohol consumption, longitudinal comparison 101
serum transferrin, carbohydrate-deficient transferrin, % CDT, marker, alcohol intake, general hospital population 249
Glycoproteins
brush-border membrane, cholesterol, phospholipids, alcohol, age effect, male Albino rats 183
lipoprotein secretion, alcohol and liver injury, rat 51
Hepatitis
cirrhosis, treatment modalities 117
Hepatotoxins
carbon tetrachloride, galactosamine, carbohydrate-deficient transferrin, alcohol, acetaldehyde, male Wistar rats 445
High-performance liquid chromatography
anion-exchange chromatography, radioimmunoassay, CDTect™, carbohydrate-deficient transferrin, transferrin abnormal isoforms 397
Hippocampus
isradipine, dihydropyridine, calcium channels, ethanol withdrawal syndrome, hyperexcitability, male TO strain mice 347
somatostatin-immunoreactive neurons, kindling, seizure, alcohol withdrawal, male Wistar rats 411
4-Hydroxybutyric acid
alcohol craving, alcohol withdrawal, a multicentric study 341
5-Hydroxytryptophol
biochemical marker, alcohol consumption patterns, psychological functioning, craving, autonomic disturbances 429
Hyperexcitability
ethanol withdrawal syndrome, isradipine, dihydropyridine, calcium channels, hippocampus, male TO strain mice 347
Ileal mucosa
long-term ethanol feeding, disaccharidase, rats 69
Implantation
blastocyst, blood flow, alcohol, rat 81
Information procedures
support, relatives of alcoholics/spouses of alcoholics, one-year follow-up 359
Inositol 1,4,5-trisphosphate
receptors, phosphatidylethanol, phospholipids, ethanol, male Sprague–Dawley rats 453
Intensive care unit
admissions, hospital resources, costs, alcohol, withdrawal 393
Isradipine
ethanol withdrawal syndrome, dihydropyridine, calcium channels, hippocampus, hyperexcitability, male TO strain mice 347
Jejunoileal bypass
liver dysfunction, jejunoileal bypass, methionine, ethanol, male Wistar rats 463
Kindling
alcohol withdrawal, seizure, somatostatin-immunoreactive neurons, hippocampus, male Wistar rats 411
detoxification, seizures, alcoholism 375
Korsakoff's syndrome
alcoholic dementia, cerebral atrophy, inter-hemispheric area, ventricular size, T1 values, magnetic resonance imaging 479
Lipoprotein secretion
alcohol and liver injury, glycoproteins, rat 51
Liver dysfunction
methionine, polyunsaturated fatty acids, jejunoileal bypass, ethanol, male Wistar rats 463
Markers
alcohol consumption level, Regranting of Driving Licences, France 617
alcohol intake, carbohydrate-deficient transferrin, % CDT, blood ethanol concentration, drinking patterns, abstinence 257
alcohol intake, carbohydrate-deficient transferrin, % CDT, γ-glutamyl transferase, serum transferrin, general hospital population 249
alcohol intake, carbohydrate-deficient transferrin,

experimental alcohol consumption, healthy subjects 265
biochemical indicators, Regranting of Driving Licences, Germany 619
carbohydrate-deficient transferrin, gamma-glutamyl transferase, longitudinal comparison 101
carbohydrate-deficient transferrin, oestradiol, progesterone, pregnant women 389
carbohydrate-deficient transferrin (CDT), alcohol consumption Regranting of Driving Licences 613
carbohydrate-deficient transferrin (CDT), alcohol dependence, Regranting of Driving Licences 621
carbohydrate-deficient transferrin, γ-glutamyl transferase, comparative sensitivity, letter to the Editor 305
carbohydrate-deficient transferrin, γ-glutamyl transferase, comparative sensitivity:reply 306
urinary excretion of, tetra-β-carbolines, alcoholic beverages 197

Media influences
alcohol consumption, research implications, output of mass media 235

Methionine
liver dysfunction, polyunsaturated fatty acids, jejunoileal bypass, ethanol, male Wistar rats 463

Monoamine oxidase B
dopamine function, abstinence, bromocriptine, apomorphine, growth hormone response, letter to the Editor 307

Muscle physiology
alcohol, protein deficiency, malnutrition, propylthiouracil, male Wistar rats 157

Neurobehavioural development
fetal alcohol syndrome, alcoholic brain damage, thiamine deficiency, rats 27

Neurons
adrenergic neurons/noradrenergic neurons/serotonergic neurons, catalase distribution in rat brain, acetaldehyde disposal, alcohol 167

NMDA receptor
$GABA_A$ receptor, dopamine, alcohol dependence, alcohol withdrawal, alcohol tolerance, physical dependence 333

Obituaries
G.K. McGregor Shaw, H.W. Goedde, J.-F. Ménez 225

Organ toxicity
colonic bacteria, acetaldehyde, ethanol metabolism, aldehyde dehydrogenase 555

Pharmacokinetic model
alcohol dehydrogenase (ADH), liver ADH, alcohol metabolism, blood–ethanol concentration, Swiss Webster male mice 365

Phospholipids
glycoproteins, brush-border membrane, cholesterol, alcohol, age effect, male Albino rats 183
inositol 1,4,5-trisphosphate receptors, phosphatidylethanol, ethanol, male Sprague–Dawley rats 453

Pregnant women
sex hormones, alcohol, carbohydrate-deficient transferrin 389

Premenstrual syndrome
alcohol consumption, Severity of Alcohol Dependence Questionnaire, gender 145

Propylthiouracil
alcohol, protein deficiency, malnutrition, muscle physiology, male Wistar rats 157
protein deficiency, trace elements, alcoholic liver disease, hypothyroidism 535

Prostacyclin
acetaldehyde, cardioprotective mechanism, endothelial cells, prostaglandin $F_{1\alpha}$, alcohol consumption, letter to the Editor 309

Psychological functioning
alcohol consumption patterns, craving, 5-hydroxytryptophol, biochemical marker, autonomic disturbances 429

Psychosis
delirium tremens, diazepam, alcohol withdrawal 273

Questionnaires
adolescent alcohol misuse, frequency–quantity of alcohol use, high-risk drinking, negatives consequences of drinking, United States 297
AUDIT, CAGE, MAST, identification screening, harmful alcohol use 591
AUDIT questionnaire, identification of alcohol misuse, age, gender, general hospital population, Northern Ireland 279
identification of problem drinkers, gender, smoking, life events, case findings, The Netherlands 287
MAST questionnaire, alcoholism screening, alcohol consumption, southern Italy 191
Severity of Alcohol Dependence Questionnaire, alcohol consumption, premenstrual syndrome, gender 145

Reactive oxygen species
α-tocopherol, glutathione, oxidative stress, vitamin E, ethanol, male Sprague–Dawley rats 403

Regranting of Driving Licences
alcohol consumption level, biological markers, France 617
biochemical indicators, Germany 619
biological markers, alcohol dependence, carbohydrate-deficient transferrin (CDT) 621
carbohydrate-deficient transferrin (CDT), high-risk offenders, Great Britain 625
drinking habits 603
laboratory markers, alcohol consumption, carbohydrate-deficient transferrin (CDT) 613
medical screening, medical–psychological assessment 605
Proceedings of a Symposium, carbohydrate-deficient transferrin (CD Tect®), indicator 601
recidivism in drunk driving, Norway 609

Research implications
media influences, output of mass media, alcohol consumption 235

Screening
alcohol misuse, detection, detoxification, prevention, GPs' awareness, education and training 231
alcoholism, alcohol consumption, MAST, questionnaire, southern Italy 191
harmful alcohol use, AUDIT, CAGE, MAST, questionnaires 591
medical screening, medical–psychological assessment, Regranting of Driving Licences 605

SECCAT Survey
alcoholism:cost, consequences, quality of life 565

Seizures
alcohol withdrawal, kindling, somatostatin-immunoreactive neurons, hippocampus, male Wistar rats 411
cocaine, cocaethylene, repeated detoxifications 135
detoxification, kindling, alcoholism 375
Self-reporting
verification of self-reporting, driving while intoxicated, court records, criminal offences 583
Serum transferrin
γ-glutamyl transferase, carbohydrate-deficient transferrin, % CDT, marker, alcohol intake, general hospital population 249
Sex hormones
oestradiol, progesterone, pregnant women, alcohol, carbohydrate-deficient transferrin 389
Somatostatin-immunoreactive neurons
hippocampus, kindling, seizure, alcohol withdrawal, male Wistar rats 411
Stress
adaptation, open-field ambulation, depression, food intake, ethanol, male albino Wistar rats 471
Support
information procedures, relatives of alcoholics/spouses of alcoholics, one-year follow-up 359
Tetra-β-carbolines
alcoholic beverages, urinary excretion, biochemical markers 197
Thiamine deficiency
fetal alcohol syndrome, neurobehavioural development, alcoholic brain damage, rats 27
hydroxythiamine, thiamine pyrophosphate, transketolase, increased alcohol consumption, AA and ANA rats 421
Thiamine pyrophosphate effect
transketolase, Wernicke–Korsakoff syndrome, alcoholics, detoxification, activity ratios 493
α-Tocopherol
reactive oxygen species, glutathione, oxidative stress, vitamin E, ethanol, male Sprague–Dawley rats 403
Transketolase
thiamine pyrophosphate effect, Wernicke–Korsakoff syndrome, alcoholics, detoxification, activity ratios 493
Tremors
harmine, HPA axis, adrenalectomy, chronic alcoholization, ethanol withdrawal, male rats 175
Tryptophan
cycloheximide, alcohol withdrawal syndrome, seizures, ethanol containing liquid diet, male Wistar rats 243
Tryptophan pyrrolase
tryptophan metabolism, mRNA, liquid diet/ethanol, alcohol withdrawal, male Wistar rats 205
Vigabatrin
GABA transaminase, alcohol withdrawal syndrome:letter to the Editor 109
Wernicke–Korsakoff syndrome
transketolase, thiamine pyrophosphate effect, alcoholics, detoxification, activity ratios 493
Withdrawal
alcohol craving, 4-hydroxybutyric acid, a multicentric study 341
kindling, seizure, somatostatin-immunoreactive neurons, hippocampus, male Wistar rats 411
alcohol withdrawal syndrome, vigabatrin, GABA transaminase:letter to the Editor 109
chronic alcoholization, adrenalectomy, HPA axis, tremors, harmine, male rats 175
diazepam, delirium tremens, psychosis 273
ethanol, isradipine, dihydropyridine, calcium channels, hippocampus, hyperexcitability male TO strain mice 347
intensive care unit, admissions, hospital resources, costs 393
liquid diet/ethanol, tryptophan pyrrolase, tryptophan metabolism, mRNA, male Wistar rats 205
withdrawal syndrome, seizures, ethanol containing liquid diet, cycloheximide, tryptophan, male Wistar rats 243
withdrawal syndrome, ethanol, isradipine, dihydropyridine, calcium channels, hippocampus, hyperexcitability, male TO strain mice 347
